Introduction to Chart

The Allergen Chart for our menu captures the items we prepare and sell unpackaged. Any items sold in original manufacturer's packaging, e.g. cans of drink, tubs of ice cream, are legally required to display allergen information on the packaging.

Allergens Key

- Allergen is NOT identified in product recipe/specification
- ✓ Allergen IS identified in product recipe/specification
- MC** Allergen is NOT identified in product recipe/specification BUT the label states it MAY BE contained.

Please scroll down for our Allergens Chart,
which covers three pages.

Statement on Allergens

The management of allergens is something we take very seriously. The nature of our business means there is a high risk of cross contamination and so we cannot guarantee any of our food is suitable for those with allergies.

We work closely with suppliers to ensure we have accurate information about the products we buy and sell. In addition, we train our teams in allergen management because they handle and prepare open food. We take all reasonable steps to minimise the risk of cross-contamination, but we strongly advise customers with questions to talk to us.

Information about the 14 declarable allergens (as defined in law) is available in store and online, but if you are allergic to something additional, please speak to a manager when you are in store. Please be advised that our vegetarian menu may not be suitable for customers with an allergy to milk and/or eggs.

Please note: This leaflet may not cover promotional products. If you require allergen information about promotional products, please ask a member of staff or contact our Head Office at:
